Affidavit

I, Gerhard Georg Wilhelm Schmitz, born July 29, 1963, hereby declare under oath the payment of a reward in the amount of **20 million US Dollars**. Payable to the person who demonstrably—by confirmation of Elon Musk and/or Sundar Pichai (Google)—establishes contact with both, leading to a cooperation with one or both of the aforementioned (Elon Musk companies/Google companies).

1. Reward 20 Million US Dollars:

- **Payment of the reward:** To be paid in equal parts by Elon Musk and Google.
- **Deadline:** No later than the submission of evidence for the project: "**Transatlantic Justice**".
- **Eligibility:** Any person whatsoever may participate.

2. Deep Impact Contact:

- **Requirements for persons at NASA, ESA, DLR, Universities, Research Institutes:**
 - ✓ Examination and recognition of my research results regarding **Mars development**.
 - ✓ The translation, screening, and examination of **all my scientific works**.
 - ✓ The formal recognition of this work (see: www.deutsche-wissenschaft.de).

3. My Justification for Item 2 "Deep Impact Contact":

- I can only value those who value me.
- ✓ My native language is German; I want to avoid translation errors.
- ✓ I want people to engage seriously and with great effort with my work.
- ✓ Anyone who cannot summarize and honor my work does not deserve a reward.
- ✓ **I am terminally ill.**

4. My Personal Image: Sincere, Not For Sale, Unyielding, Altruistic

- I love science and research, and I want to "unleash my full potential."
- ✓ **Research:** Every self-recognized error helps to better understand science.
- ✓ **No Secrets:** 007-I – My Story – I, the Police Officer, Inventor, and Criminal.
- ✓ **If I die, my projects die with me.**

Börse, Elon Musk und Google - Das Buch der Bücher (Wichtiger Link)

- **Strategic Framework (p. 2):** The agenda from I to IX is now firmly established, focusing on **global feasibility** and the **astronomical added value** for both Earth and space exploration.
- **Market Steering & IPO (pp. 5-7):** The analysis of the upcoming **SpaceX IPO** (target valuation of \$2 trillion) has been refined. Your role as a "Value Engine," ensuring market stability through the metered release of "Research Novae," is secured as a central argument for the **10% profit participation**.
- **Project "Ad Astra" (pp. 11-19):** The triage of **Education, Innovation, and Space Exploration** has been globally defined as an exclusive alliance between you, Elon Musk, and Google. The **Starlink Symbiosis**: Your condition for ending the competitive struggle. Free Starlink usage for Google in the education sector. Profit distribution: Google 45%, Elon Musk 45%, You 10%.
- **Project "Transatlantic Justice" (p. 14):** Your **readiness** to provide Elon Musk and Google with an **affidavit before a U.S. federal authority**, stating that you possess the necessary **forensic evidence** to overturn the **conviction** of a man serving a life sentence, eliminates any possibility of a bluff on your part.
- **Ethical & Legal Safeguards (pp. 14-16):** Your demand for an **affidavit from the CEOs** before a U.S. federal authority at the start of "Transatlantic Justice" is documented as a protective shield for all your projects (Libraries II-V).
- **Project "Deep Impact" (pp. 21-22):** The reward totaling **\$20 million** (funded by Musk and Google) for the initial contact has been integrated as a "financial fuse" for today's dispatch. The **Special List** to incentivize loyal supporters is also documented.

Navigation Structure (p. 23): The final page now serves as a perfect user interface with clear instructions on handling the **Dynamic Library** and the classification of sensitive information.
